### MESSAGE FROM THE PRESIDENT

Hello Pamela S.,

We recently honored the 20 year anniversary of the horrific attacks experienced by our nation on 9.11. I remember that day like it was yesterday. I was on the staff of US Senator Jim Bunning. I was home sick as I watched in horror the breaking news.

I could not believe what I was watching and then a plane hit the Pentagon. I called each branch of the military liaison offices I worked with to get no answer. I remember praying. I finally reached the Army liaison office on Capitol Hill by phone. I learned that my friends at the Pentagon were safe but later learned they were assisting with the injured. One officer told me he had just walked through the section of the Pentagon hit by the crashing plane. What they described was something I cannot put into words

Six months later, I was in DC and wanted to go visit my friends at the Pentagon but

was told the facility was closed to the public and entrances were guarded by armed military personnel.

However, since I was on a Senate staff, I was given a special pass and shuttled from capitol hill to the Pentagon with Army personnel. Upon arrival, several humvees were moved to allow us to proceed past the barricade. A fully armed soldier entered our shuttle to inspect our ID's and credentials.

With escort, I made my way to the Air Force liaison office to speak to those whom I had come to call friends. From the colonel to the major and other officers, the memory of what happened the day the Pentagon had been penetrated was a day they would never forget in a different way.

Sometime later our office in DC was hit with anthrax preventing staff from opening any mail without going thru a process. Our, all volunteer, military was ordered to Afghanistan and American pride was at the highest level with 10's of thousands of US citizens joining the military to protect and defend our country while teaching others in a foreign land to do the same.

Our military became brothers and sisters with one purpose seeing no differences in race, ethnicity, or gender. They stood side by side while protecting those of us who never left the borders of the US. There was a respect among people and accountability for actions.

During the summer of that fateful year, I received a call to help an Iraqi national migrate to the US under a special immigrant visa law passed by Congress.

Omar happened to be the one who saved the life of ABC news anchor, Bob Woodruff. Omar personally told me he kept him alive by buddy aiding until the ground fire slowed allowing medical personnel get to the wounded.

I still get calls asking questions about the immigration process of these foreign nationals.

After the events that happened in Afghanistan these last few weeks, I cannot forget 9.11 in different ways. We have become a society who respects no authority, we cannot accept our own accountability in the choices we make, the unrest we saw in other parts of the world is in cities within our borders, our police are accused of profiling, yet it is they who are profiled because they are police. We see citizens divided with different opinions about one topic and no room for compromise. As I speak to groups all over Kentucky, we talk about equality and fairness to all but usually for a select group of people with no thought of equality and fairness outside of the group we are talking about. These groups of people with special interests are with agendas and in the news. I could go on but, if you remember 20 years ago, then how can you stand by and let the memory of where we were as a nation then be just a memory instead of being the nation we have become?

May God Bless you each, and everyone!

For God and Country,

*Pam*

Pamela S. Roberts

President - KFRW, 2021 & 2022

---

## MEET SCHOLARSHIP WINNER BROOKE MURPHY

Scholarship Chair, Tina Fox reported we had 46 applicants for the \$1500 scholarship offered by the KFRW to one lucky senior girl who will continue her education. This year's winner, Brooke Murphy had an outstanding application with many accomplishments. She lives in Kenton County, Kentucky and attended Notre Dame Academy in Park Hills, Kentucky. Those who attended the Executive Committee and Executive Board Meeting in June met Brooke and her mother. Congratulations Brooke. We are proud of you.

Do not forget to let young women in your area know about our scholarship. For more information on this award, please [CLICK Here!](#)

---

## Guest Speakers at the KFRW Executive Committee And Executive Board Meetings in June, 2021

Dr. Yao Yao is a research scientist and is a member of the McCracken County RWC. Dr. Yao delivered a powerful message regarding living in China under communist rule. If you have not yet heard Dr. Yao's testimony, please watch for her story as she tells it in her own words. It will be emailed to you in your inbox. You will not want to miss Dr. Yao's compelling story of living in China after the revolution!

Mr. Richard Nelson is the Executive Director of the Commonwealth Policy Center. Mr. Nelson spoke about the core values we share as conservative voters.
